

## Training Results Metrics

<https://campus.barracuda.com/doc/77402334/>

This page describes the main metrics you can use in the Training results.

You can use these metrics:

- to add to custom column layouts, as described in [Working with Results Tables](#).
- to make custom reports in the Summary Fields, as described in [How to Create Custom Reports](#).
- in the Filter in the left panel to locate specific records within Outbound Analysis results, as described in [Working with Results Tables](#).

Metric Name	Format	Description
Answerable Question Count	free text	Number of questions that can be answered in this survey, specified as a range from <i>at least</i> to <i>at most</i> .
Completed	True/False	Did the Completion % value meet or exceed the Completion Threshold value?
Completion %	free text	Percentage of questions that have been viewed, specified as a range from <i>at least</i> to <i>at most</i> .
Completion Threshold	free text	Percentage of questions that must be completed before the survey is considered completed, specified as a range from <i>at least</i> to <i>at most</i> .
Correct Answer %	free text	The user's score, expressed as a percentage of answerable questions that had correct answers selected, specified as a range from <i>at least</i> to <i>at most</i> . Does not apply to Risk Assessment mode.
Correct Answer Count	free text	The number of answerable questions with all correct answers selected, specified as a range from <i>at least</i> to <i>at most</i> . Applies to questions where a correct answer is indicated.
