

Base Licenses

<https://campus.barracuda.com/doc/78151836/>

The CloudGen Firewall base license provides a standard set of features (for example, FW, VPN, SPAM, DHCP, and FTP) and is a non-termed license valid until 2030. There are differences between the hardware (F), virtual (VF), software (TSF), and public cloud licenses regarding capacity.

Some license options (TSF, enterprise pool, and public cloud licenses) have the base functionality included via the Energize Updates subscription, which means base functionality is bound to the expiration date of the Energize Updates subscription. For more information, see [Subscriptions](#).

Base License Types

The following base license types are available for your CloudGen Firewall:

Base License Type	Installed on	License bound to
Hardware License	CloudGen Firewall hardware appliance	<ul style="list-style-type: none"> • MAC licenses • Pool licenses
