

Confirmation Pop-Up for Changing Backup Set Names

<https://campus.barracuda.com/doc/78151893/>

If you did not change the default backup set name when creating a new backup set, the following confirmation pop-up is displayed after clicking the **Create Backup** button.

This feature allows you to create a unique name for the backup set if you desire. If you already changed the default backup set name, the pop-up is not displayed.

See [Changing Backup Set Names](#) for instructions on how to change the backup set name.
