

Status Page

<https://campus.barracuda.com/doc/78153946/>

The **Status** page provides an overview of your backup activity and storage details. Click on a graph to view a larger display of the data.

Mobile Access

You can also view Barracuda Backup appliance status using Barracuda Networks Mobile Applications.

Backup Activity

The two graphs in this section display cloud storage backup activity indicating the size and the number of backup items and data added by date.

Storage Efficiency Statistics

This section displays storage efficiency statistics including raw data and actual storage in the cloud.

Table 1. Storage Efficiency Statistics

Table Value	Description
Raw Data	Total amount of data sent to Barracuda Cloud Backup including revisions.
Items	Total items sent to Barracuda Cloud Backup.
Actual Storage	Total amount of actual storage being used.
Snapshot Equivalent	Total amount of space required to back up your data based on your retention policies projected over the next three years, without deduplication and compression.
Deduplication Ratio	Total amount of space savings calculated by dividing raw data by actual storage space.

Storage History

This section displays the Barracuda Cloud Backup storage history. View current, historic, and actual data storage size (in GB) in the cloud by date.

Table 2. Storage History

Table Value	Description
Raw Historic	Represents all content sent to the cloud up to the current date.
Raw Current	Represents current content sent to the cloud before deduplication processing.
Actual Storage	Represents the total content currently stored in the cloud.
