

Understanding What Exchange Online Data is Backed Up

<https://campus.barracuda.com/doc/78153957/>

Exchange Online Hybrid Deployment

Barracuda Cloud-to-Cloud Backup offers limited support for Exchange Online hybrid deployments.

Mailboxes that exist in Exchange Online are protected by Barracuda Cloud-to-Cloud Backup. Mailboxes that exist only in the on-premises environment appear as empty mailbox records in the Cloud-to-Cloud Backup system.

For Exchange Online, Barracuda Cloud-to-Cloud Backup protects all email messages, attachments, and the complete folder structure of each user's mailbox. You can restore messages, folders, or entire mailboxes back to the original account or export via the [download feature](#).

Exchange Online Mailbox	Barracuda Cloud-to-Cloud Backup
	

To get started, add the [Barracuda Cloud-to-Cloud Backup service](#) and select your [deployment](#).
