
How to Update the Barracuda VPN Client for macOS

<https://campus.barracuda.com/doc/78154122/>

Before updating the Barracuda VPN Client for macOS, read the **Release Notes** from the latest version to learn about any possible changes.

Update the Barracuda VPN Client for macOS and all of its components from an older 3.x version to a newer one. You can receive updates for the Barracuda VPN Client via the **Main Menu** or conventional distribution methods. Install the updates upon receipt.

Before You Begin

- Disconnect before installing your new client.
- If you have particular questions regarding the migration process, contact [Barracuda Networks Technical Support](#).

Update the Barracuda VPN Client for macOS

To update the macOS GUI version of the Barracuda VPN client, see [Installing the Barracuda VPN Client for macOS](#) and follow the instructions for a fresh installation. The new version will replace your existing version without the loss of any settings.
