

Backup Reports

<https://campus.barracuda.com/doc/78154177/>

Barracuda Backup provides a detailed report for each backup that is run. In addition, any backup process currently running displays. Backup reports include details about the backup such as when the backup started, duration, size, if there were any errors or warnings, and any new, changed, or removed items. Reports also include links to each backed up file to view or download the item from the report. Click **Details** to view recent activity in chart form. You can also view a list of backed up files including the number of new, changed, and removed files, as well as a list of any errors encountered during backup.

Click **Download** the report as a **.csv** file to your local system.
