

User Management

<https://campus.barracuda.com/doc/78156014/>

If you are an administrator, you can create administrative users. Administrators can create additional administrative users. Administrative users can read and write Barracuda Cloud Security Guardian configurations.

To add new administrators:

1. Navigate to **Settings > User Management**.
2. Click **Add User**.
3. Specify an email address for this individual.
4. Click **Add**.

The user receives an email with a link inviting them to register. The user then clicks the link and follows the procedure outlined in [Step 1: Creating a Cloud Security Guardian Account - AWS](#).
