

## Self-Service Domain Moves

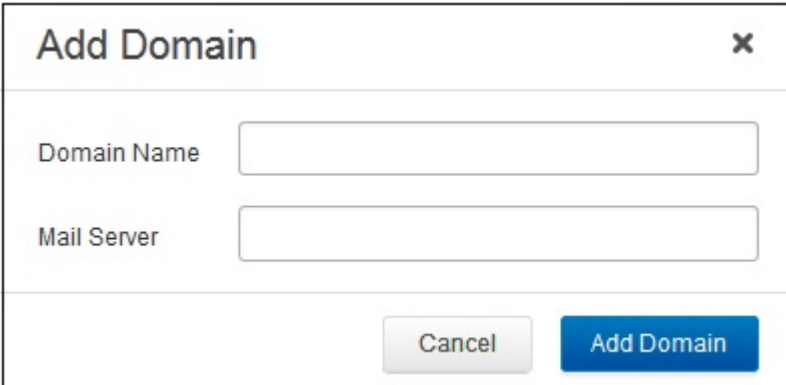

<https://campus.barracuda.com/doc/78808392/>

Administrators can transfer one or more domains from one account to another without the need to contact Barracuda Networks Technical Support. For example, moving a domain previously managed by a reseller to your own account.

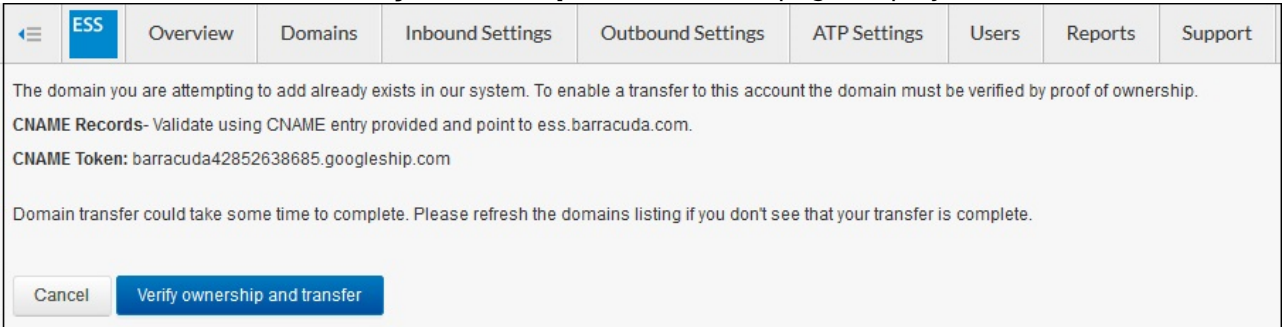

### Move a Domain

Complete the following steps to move a domain:

1. Log in to <https://login.barracudanetworks.com>, and click **Email Security** in the left pane.
2. Go to the **Domains > Domains Manager** page, and click **Add Domain**. In the **Add Domain** dialog, enter the domain details:

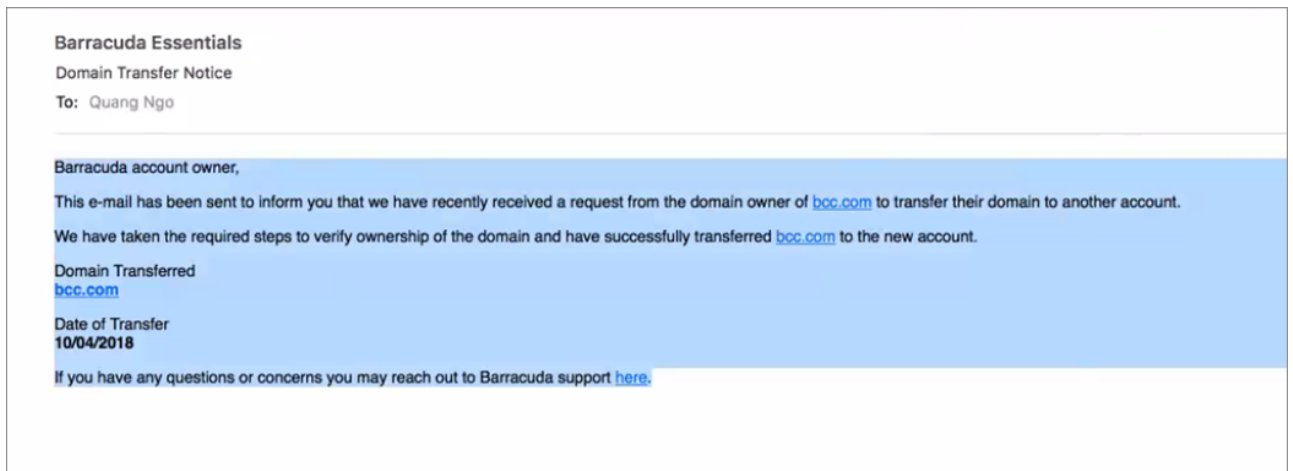

3. Click **Add Domain**; the **Verify ownership and transfer** page displays:

4. Configure a CNAME record on the service hosting the new domain.
5. Click **Verify ownership and transfer**. This process might take up to two minutes. Once the transfer is complete, click **OK** to return to the **Domains** page:

6. Once the transfer is complete, an email notification of the transfer is sent to the previous account owner:
