View Revisions

There are several ways that you can view the different revisions of data you want to restore:

- Change the Date View – Changing the date displays data in the Restore Browser as it appeared to Barracuda Backup on the selected date.
- View all revisions – When navigating through folders, **View all revisions** becomes active at the top of the Restore Browser. Click to display all the available revisions for the currently selected folder:

The screenshot shows the Barracuda Backup Restore Browser interface. The top navigation bar includes links for Dashboard, Backup, Restore, Reports, System, and Admin.
