

# Basic File Restore

Use the following steps to perform a basic file restore from the Restore Browser:

1. Select the Barracuda Backup device from which to restore data, and go to the **Restore > Restore Browser** page.
2. In the left or right pane, select the data source that contains the files you want to restore.
3. In the right pane, navigate to and click on the content you want to restore, and click **Restore**.
4. In the **Restore** dialog, use the **Restore to** section to select to restore to the original location, an alternate location previously backed up, or an alternate location not previously backed up by Barracuda Backup.
5. In the **Path** section, select to restore to the original path, or enter a new path to which to restore the data.
6. Click **Start Restore**.
7. Go to the **Reports > Restore** page to view the restore status; click on a report to view individually restored items.
8. To stop the restoration process, go to the **Reports > Restore** page, and click **Abort Restore**.

## View Revisions

There are several ways that you can view the different revisions of data you want to restore:

- Change the Date View – Changing the date displays data in the Restore Browser as it appeared to Barracuda Backup on the selected date.
- View all revisions – When navigating through folders, **View all revisions** becomes active at the top of the Restore Browser. Click to display all the available revisions for the currently selected folder:

The screenshot shows the 'Restore Browser' interface for a 'Marketing' folder. At the top, there are navigation tabs: Dashboard, Backup, Restore, Reports, System, and Admin. Below the tabs, there are buttons for 'View all revisions up to: 2018-08-30 06:59:59-00', 'Restore latest revision of folder', and 'Download entire folder'. The main area is divided into two sections: 'REVISIONS' and 'CONTENTS'. The 'REVISIONS' section shows a table of file revisions with columns for Name, Size, and Revision. The 'CONTENTS' section shows a list of files with columns for Name, Size, and Last Change Detected. The 'Marketing' folder is selected, and the 'View all revisions' button is active.

Name	Size	Revision
Marketing	--	Today 8:01am PDT
Marketing	--	Today 4:01am PDT
Marketing	--	Yesterday 8:01pm PDT
Marketing	--	Yesterday 4:01pm PDT
Marketing	--	Yesterday 12:01pm PDT
Marketing	--	Yesterday 8:01am PDT
