

## Audit Log Report

<https://campus.barracuda.com/doc/78809625/>

The **Reports > Audit Log** page displays a list of all activities initiated in the Barracuda Backup appliance. In this view you can browse through the list, search by user name, or filter by start/end dates. Additionally, you can specify whether to include login and admin actions in the audit log. If additional information is available, click **Details** to view activity specifics.

The following table lists the primary audit logging details available in the **Reports > Audit Log** page:
