

Phish Reporting Button

<https://campus.barracuda.com/doc/78809653/>

Enable your users to report suspect emails with the click of a button, right from within their email client.

1. You can create the button to appear on Microsoft Outlook, Microsoft Exchange, or Google email platforms.
2. The users can report suspect email in that environment, as soon as they encounter it.
3. The suspect email is sent to the people you configured as recipients for this information.

For details on creating, customizing, and using these buttons, refer to [Button Plugin Config](#).
