
Account Settings

<https://campus.barracuda.com/doc/79467331/>

Use this page to configure the following for each account:

- **Branding block pages:** Customize branding for your PDF reports and the block page displayed to users.
- **Option to have local DNS server resolve domains** instead of the server selected by BCS Plus.
- **Syslog:** Optionally export logs to your syslog server.

This page also includes a **domain lookup tool** by category.

Custom Branding

- Logos can be formatted in .JPG, .JPEG, .JPE, .GIF, .BMP, or .SVG
- Logos are constrained to a maximum height of 240px, and widths are constrained to a maximum of 240px.
- File size must not exceed 100K.

Click **Select File** for a popup where you either can drag a logo file, or click **Select File** to browse your local network or drive for a file. Click **Upload**.

Syslog Configuration

If you want to export log information from your **BCS Plus** account to your custom logging server, use the Syslog feature as described in [Syslog Integration with Barracuda Content Shield](#). Syslog data is available for the following traffic:

- **Web Filtering Component (WFC) log:** Web traffic logs generated by the BCS agent Web Filtering Component (WFC), or when the Barracuda Web Security Gateway is integrated with BCS.
- **Chromebook**
- **DNSproxy**
- **ATP**

Look up Domain Category

To find the category to which a domain belongs, enter the domain name and click **Look Up**; the

category is returned under **Category Name**. In this example, the domain portofmokha.com is shown to be in the Dining or Gourmet category.

Look for Domain Category

Domain Lookup
portofmokha.com

Category Name
Dining or Gourmet

Re-categorize a Domain by Category

Use this feature to request re-categorizing a domain; i.e. reassigning it to a different category. Type the domain name in the **Domain** field, and then click the drop-down to select the new category for that domain. After you confirm and submit your request, the page will display the message *Your request for recategorization is submitted*. **This does not necessarily mean the domain will be recategorized.**

Time Zone

To set the time zone, see [How to Set the Time Zone](#).
