About Symantec Endpoint Protection

https://campus.barracuda.com/doc/84313228/

Symantec Endpoint Protection provides state-of-the-art defense against all types of attacks and seamlessly integrates the essential antivirus security tools you need into a single, high performance agent with a single management console.

Within Barracuda Managed Workplace, you can quickly view a health summary of all endpoints, license status and types deployed, information about the Symantec Endpoint Protection Manager servers across your sites, and access Symantec Partner Services. You can also remotely run commands on the Symantec server and the protected endpoints.

See “Using Service Modules” in the User Guide or online help
