

About Axcient

<https://campus.barracuda.com/doc/84313337/>

Axcient provides a complete data protection solution, purpose-built as a platform for Managed Service Providers to serve their small and medium-sized business customers. The solution is delivered as a hybrid on-premise appliance with backup and business continuity capabilities combined with its cloud-based disaster recovery service, all managed through the web.

The Barracuda Managed Workplace Axcient Service Module has the following features:

- Monitors the health, availability and performance of one or more Axcient appliances
- Monitors Axcient backup jobs
- Provides backup management reports
- Provides up-to-date information on devices at the site, including the Axcient appliance
- Links to the Axcient dashboard and portal from Service Center

See “Using Service Modules” in the User Guide or the online help.
