Microsoft Office 365 Service Module Integration Guide

https://campus.barracuda.com/doc/84314042/

A service module is an enhanced policy module that includes a dashboard, monitors, reports and scripts. Service modules enable Barracuda Managed Workplace to integrate with different software vendors.

This section provides detailed information about the following topics:

- About the Microsoft Office 365 Service Module
- User Requirements and Setup
- Installation and Configuration

About the Microsoft Office 365 Service Module

This document provides instructions for using the Office 365 Service Module in Barracuda Managed Workplace®. This document assumes that you are familiar with Barracuda Managed Workplace and its functions, and is limited to the Office 365 Service Module. There will also be no instructions for Office365.com. For more information about using Barracuda Managed Workplace, see the Barracuda Managed Workplace User Guide, available on the partner portal.
