About Moving Barracuda Managed Workplace

https://campus.barracuda.com/doc/85493739/

Moving Barracuda Managed Workplace is a simple process that can be accomplished quickly if you understand what must occur before proceeding. This is the process:

- uninstall the application
- back up the databases
- restore all databases
- reinstall the application

This way you can move either the application server, the database server or both.

Throughout this section, the server or servers from which the Barracuda Managed Workplace is being moved are referred to as the originating server. The server or servers onto which Barracuda Managed Workplace is being moved are referred to as the destination server.
