

How to Connect to Barracuda Cloud Control

<https://campus.barracuda.com/doc/8650768/>

The Barracuda Cloud Control service centrally manages up to five Barracuda NextGen X-Series Firewalls. When an X-Series Firewall is linked to Barracuda Cloud Control, it continuously synchronizes its configuration settings with the service. It is still possible to continue using the on-device web-interface to manage the device, while it is connected to Barracuda Cloud Control.

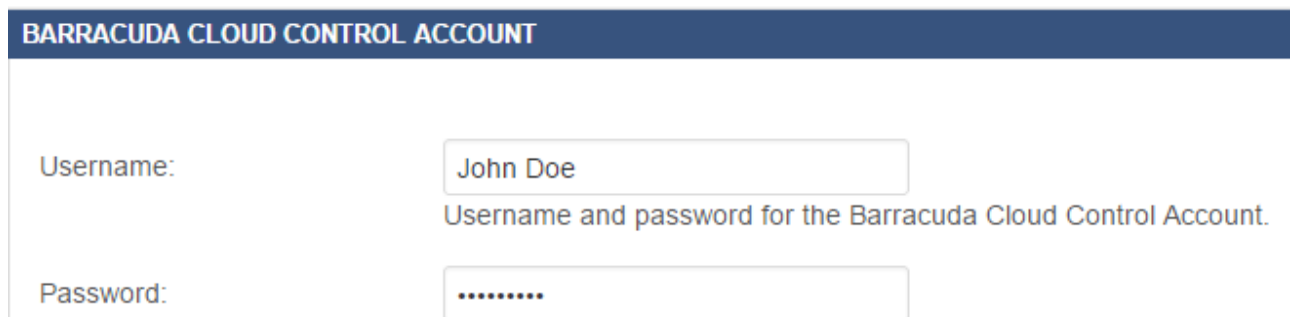

Before you Begin

[Create a Barracuda Cloud Control Account.](#)

Connect to Barracuda Cloud Control

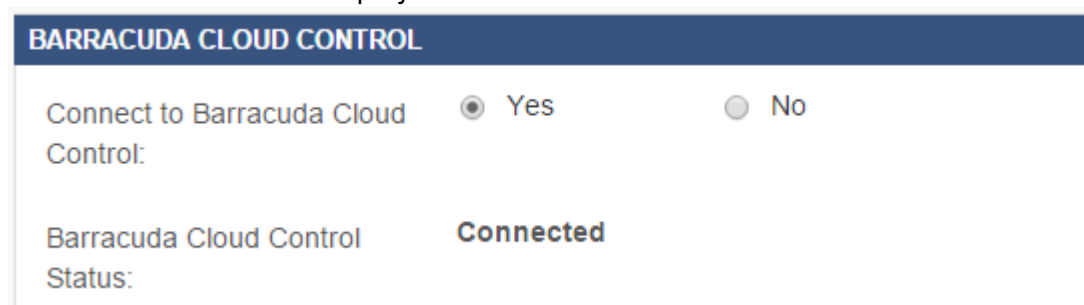

To connect an X-Series Firewall to Barracuda Cloud Control:

1. Go to the **BASIC > Cloud Control** page and enter your cloud control account credentials.

The screenshot shows a web form titled "BARRACUDA CLOUD CONTROL ACCOUNT". It contains two input fields: "Username:" with the text "John Doe" and "Password:" with masked characters ".....". Below the password field is a note: "Username and password for the Barracuda Cloud Control Account."

2. Enable **Connect to Barracuda Cloud Control** and click **Save**. After a successful connection, a **Connected** status is displayed.

The screenshot shows a web page titled "BARRACUDA CLOUD CONTROL". It features a section "Connect to Barracuda Cloud Control:" with two radio buttons: "Yes" (selected) and "No". Below this, it shows "Barracuda Cloud Control Status:" followed by the word "Connected" in a bold, dark font.

3. Log in to <https://bcc.barracudanetworks.com> with your Barracuda Cloud Control account to manage your X-Series Firewall using Barracuda Cloud Control.
