

## How to Connect to Barracuda Cloud Control

<https://campus.barracuda.com/doc/8650768/>

The Barracuda Cloud Control service centrally manages up to five Barracuda NextGen X-Series Firewalls. When an X-Series Firewall is linked to Barracuda Cloud Control, it continuously synchronizes its configuration settings with the service. It is still possible to continue using the on-device web-interface to manage the device, while it is connected to Barracuda Cloud Control.

### Before you Begin

[Create a Barracuda Cloud Control Account.](#)

### Connect to Barracuda Cloud Control

To connect an X-Series Firewall to Barracuda Cloud Control:

1. Go to the **BASIC > Cloud Control** page and enter your cloud control account credentials.
