# Overview - Local Only Backup

https://campus.barracuda.com/doc/86545816/

The Local Only Backup feature allows you to create backups that are only stored on the Local Vault. These backups are not stored on Barracuda servers and do not count toward your remote storage.

The following Barracuda MSP backup types provide a local only backup option:

- File and Folder
- Physical Imaging Standard
- Hyper-V Standard
- VMware Standard
- Exchange Info Store
- Exchange Mailbox
- SQL
- System State
