Plan Percentage Report

The Plan Percentage Report provides details on how much of your total reseller data block each client is using.

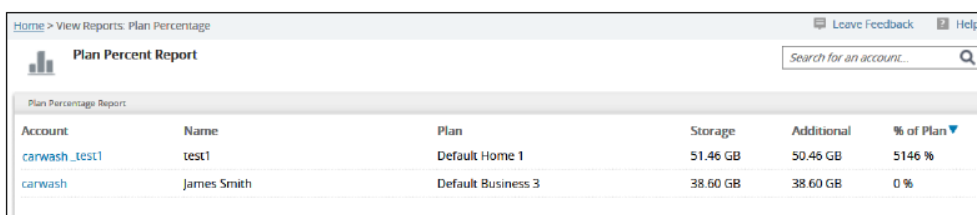

Use this report with the Backup Status Report to understand trends in usage and to identify which clients need to upgrade their plans or determine ways of decreasing their data volume.

Accessing the Plan Percentage Report

To view the Plan Percentage report, at the ECHOplatform ribbon, click **View Reports**, and then select **Plan Percentage**, as shown below.

An example of a Plan Percentage Report is provided below.

Plan Percent Report					
Account	Name	Plan	Storage	Additional	% of Plan
carwash_test1	test1	Default Home 1	51.46 GB	50.46 GB	5146 %
carwash	James Smith	Default Business 3	38.60 GB	38.60 GB	0 %

The report provides the following details:

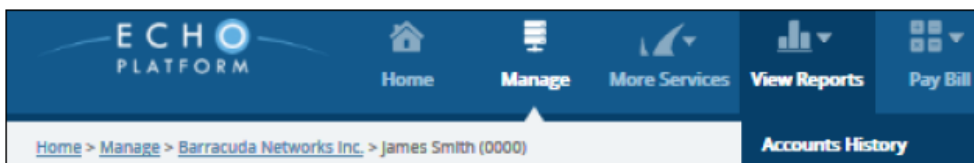

- Account
- Name
- The user plan
- Storage usage
- How much additional storage is being used
- The percent of your Partner plan each user is using

Accounts History Report

The Accounts History Report provides a graphic of the number of active accounts.

Accessing the Accounts History Report

To access the Accounts History Report, at the ECHOplatform ribbon, click the **View Reports** tab, and then select **Accounts History**, as shown below.

An example of an Accounts History Report is provided below.

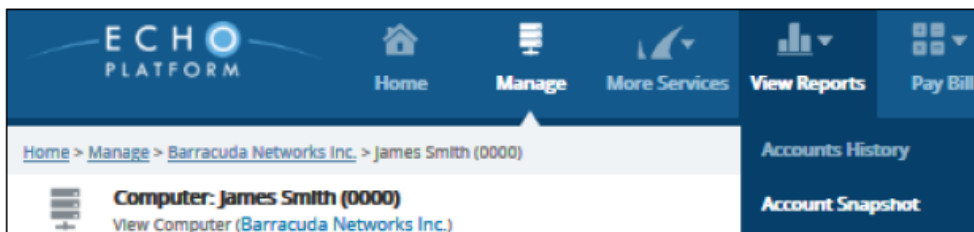

Use the date drop-down menu to select the date range you want displayed, and then click the Apply button.

Account Snapshot Report

To obtain usage and billing data, you can use the Account Snapshot Report, which can be exported to a .csv file and imported into many accounting applications.

Accessing the Account Snapshot Report

To access the Account Snapshot Report, click the **View Reports** tab, and then select **Account Snapshot**, as shown below.

An example of an Account Snapshot Report is provided below.
