

Rebooting devices after a third party software update

<https://campus.barracuda.com/doc/89620987/>

In order to use Advanced Software Management to apply updates, you must purchase an additional license. Contact your Barracuda sales representative.

You may want to set up an alert that notifies you if a device requires a reboot after installing a patch. For more information, see [Monitoring Advanced Software Management](#).

1. In Service Center, click **Advanced Software Management** > **Reports**, then click one of the following:
 - **Patch Report**
 - **Device Report**
2. Filter for the devices you want to reboot.
3. Select the check boxes of the devices you want to reboot.
4. Click **Reboot Now**.
