
Viewing Antivirus Summaries for a Site

<https://campus.barracuda.com/doc/90440738/>

On this page you can access the following topics:

- [Antivirus Dashboard](#)
- [To start a scan of all devices in the site and update the virus definitions on all devices in the site](#)
- [To scan all devices in a site with Avast Business Antivirus](#)
- [To update the Virus Definitions on all devices in a site](#)

Antivirus Dashboard

If you installed Avast Business Antivirus on a site from Service Center, the site's antivirus dashboard gives you access to antivirus information for that site. On the site's antivirus dashboard, you can see a summary of Avast Business Antivirus deployment:

How many devices in the site:

- have antivirus installed
- do not have antivirus installed
- have antivirus installed but do not have an antivirus policy set up

You can also see a summary of devices with the following types of alerts:

- **Threat detected**
- **Virus definition out-of-date**
- **Antivirus disabled**
- **Virus scan overdue**
- **Restart required**

To start a scan of all devices in the site and update the virus definitions on all devices in the site

1. In Service Center, click **Dashboards > Central Dashboard**.
2. Click the name of a site.
3. Click **Avast Antivirus** on the right sidebar.

To scan all devices in a site with Avast Business Antivirus

1. In Service Center, click **Dashboards > Central Dashboard**.
2. Click the name of a site.
3. Click **Avast Antivirus** on the right sidebar.
4. In the **Management** section, click **Scan All Devices**.

To update the Virus Definitions on all devices in a site

1. In Service Center, click **Dashboards > Central Dashboard**.
2. Click the name of a site.
3. Click **Avast Antivirus** on the right sidebar.
4. In the **Management** section, click **Update Virus Definitions On All Devices**.
