
Modifying Services

<https://campus.barracuda.com/doc/90440785/>

This page provides the following topics:

- [Overview](#)
- [To change the name or description of a service](#)
- [To add policies to a service](#)
- [To remove policies from a service](#)

Overview

You can modify an existing service by changing the name or description, and adding and removing policies.

To change the name or description of a service

1. In Service Center, click **Configuration > Services**.
2. Click the name of a service.
3. Type a new name or description.
4. Click **Save**.

To add policies to a service

1. In Service Center, click **Configuration > Services**.
2. Click the name of a service.
3. In the **Policies** area, click **Add**.
4. From the list, select the type of policy you want to add, and then click **Add**.
A list of policies appears, filtered by the type of policy you selected in the previous step.
5. Select the check box beside each policy you want to add to the service.
6. Repeat steps 5 and 6 for each policy type that you want to add until you have finished adding policies to the service.
7. Click **OK**.

To remove policies from a service

1. In Service Center, click **Configuration > Services**.

2. Click the name of a service.
3. Select the check box beside each policy you want to remove.
4. Click **Remove**.
