

Setting an Execution Schedule as the Default

<https://campus.barracuda.com/doc/90441026/>

A default execution schedule is applied by default to all new sites you create that have a service plan applied.

When you create a site, you choose:

- the service delivery model, i.e. applying a service plan to the site
- applying a service plan to groups, or
- opting not to use service plans

When a service plan is applied, via sites or groups, the default execution schedule is automatically applied.

1. In Service Center, click **Configuration > Schedules > Execution**.
2. Select the check box beside the schedule you want to set as the default.
3. Click **Set as Default**.
