
Scheduling Antivirus Program Updates

<https://campus.barracuda.com/doc/90441048/>

The Antivirus program update schedule determines when and how often the antivirus program is updated.

To Schedule an Antivirus Program Update Schedule for Avast Business Antivirus

1. In the **AV Schedules** section, in the **Schedule** column of the **AV Program Updates** row, click the first link (Begins with the word **Run**).
2. Do one of the following:
 - To run the AV definition update every day, click **Daily**.
 - To run the AV definition update once a week, click **Weekly**, then select the day of the week to run.
 - To run the AV definition update once a month, click **Monthly**, then type a number in the **Day** box.
Selecting 1 runs on the first day of the month, 2 on the second day, and so on.
3. Type the time the scan begins in the corresponding box.
You can also click the clock icon and select a time from the list.
4. Click **Save**.
