

Viewing Report Policy Execution Results

<https://campus.barracuda.com/doc/90441883/>

The **Report Policy Execution History** page provides a summary of successful and failed reports from the report policies that you have applied. You can filter the results by service plan, site, report status (i.e. succeeded or failed), and time period.

Reports are grouped into report category, i.e. **Network Audit Reporting** or **Windows Patch Reporting**. You can expand the groups by clicking the chevron beside each group to view the reports within.

To view report policy execution results

1. In Service Center, click **Status > Report Policies**.
2. Filter the results by selecting a service plan, site, status, and time period from the lists, and click **Filter**.

To run a report

1. In Service Center, click **Status > Report Policies**.
2. Click the chevrons to expand.
3. Click the check box beside the report you want to run. You can select one report at a time.
4. Click **Run Now**.
