
Viewing Automation Results on the Services Dashboard

<https://campus.barracuda.com/doc/90442972/>

You can view the results of automated tasks run so far today, in the current calendar week, and the current calendar month. The **Automation** section includes two dials that indicate the following success measures:

- The **Tasks Succeeded** dial indicates the percentage of successful tasks for the time period you have selected.
- The **Tasks Completed** dial indicates the percentage of completed tasks for the time period you have selected. For example, if there are tasks that have not yet begun, or are currently running, the **Tasks Completed** dial indicate the percentage that have not yet run.

You can use the **Automation** section to view details about failed tasks, and tasks that have not yet completed for the time period you specified.

To filter Automation results by time period

1. In Service Center, click **Dashboards > Services Dashboard**.
2. In the **Automation** section, click one of the following:
 - To view results for the current day, click **Today**. Results are filtered by automation activity beginning at 12:00 a.m. the current day.
 - To view results for the current week, click **Week**. Results are filtered by automation activity beginning on Sunday of the current week.
 - To view results for the current month, click **Month**. Results are filtered by automation activity beginning on the first day of the current month.

To view failed tasks

1. In Service Center, click **Dashboards > Services Dashboard**.
2. In the **Automation** section, click the number below **Tasks Failed**.
3. The **Automation Calendar** opens displaying the same time period you had filtered on the **Services Dashboard**.
From here, you can click the failed task to take action. For more information, see [Following Up on Executed Tasks](#).

To view remaining tasks

1. In Service Center, click **Dashboards > Services Dashboard**.

2. In the **Automation** section, click the number below **Remaining Tasks**.
3. The **Automation Calendar** opens displaying the same time period you had filtered on the **Services Dashboard**.

From here, you can view the tasks that have not yet completed.
