When Your Energize Updates Subscription Expires

https://campus.barracuda.com/doc/90443144/

You should keep your Energize Updates subscription current in order to continue applying the latest security definitions to your Barracuda Web Application Firewall and protect your network and users. The Barracuda Web Application Firewall will prompt you with a message at the top of the **BASIC > Dashboard** page before the subscription expires.

The table provides the details of the impact the expiry of Energize Updates subscription has on the capabilities of the Web Application Firewall in the different form factors.

	Hardware	**Vx and BYOL**
Access to the Management User Interface	Available	Available
Security	Available	Available
User Configuration Changes	Available	Not Available
Reports and Logs	Available	Available
Firmware Downloads	Not Available	Not Available
Security Definitions	Not Available	Not Available
