

Waking a Computer Remotely

<https://campus.barracuda.com/doc/90443737/>

To wake a computer remotely , perform the following steps.

1. Log in to Service Center using a user account that has the **End User** role applied to it.
2. Select the check box for the device you want to wake.
3. Click **Wake Computers**.
4. Click **Log Out**.

After a few moments, the computer is ready to use remotely.

Barracuda Managed Workplace does not provide remoting capabilities to the end user. This option must be set up through other means.
