

Viewing Backup Data for a Site

<https://campus.barracuda.com/doc/90445883/>

The **Infrascale BDR Site Overview** dashboard provides links to information about the status of backups at a site.

From the **Site Overview** dashboard, you can:

- Manage the command status a device backup.
- View a pie chart depicting the available disk quota versus the used disk quota.
- View a bar chart depicting the backup history for the past 7 days.
- Generate the **Infrascale Site Backup Summary** report.
- Reboot and backup protected devices.
- Drill down to detailed information about appliances installed at the site.
- Drill down to detailed information about protected devices (file and folder or bare metal backup) at the site.

To view the Infrascale Site dashboard

- On the Central Dashboard, click the **Infrascale** icon  for a site.

You can also access the **Infrascale** site dashboard from the **Infrascale** multisite dashboard by clicking the site name.
