

How to Schedule an Office 365 Groups Backup

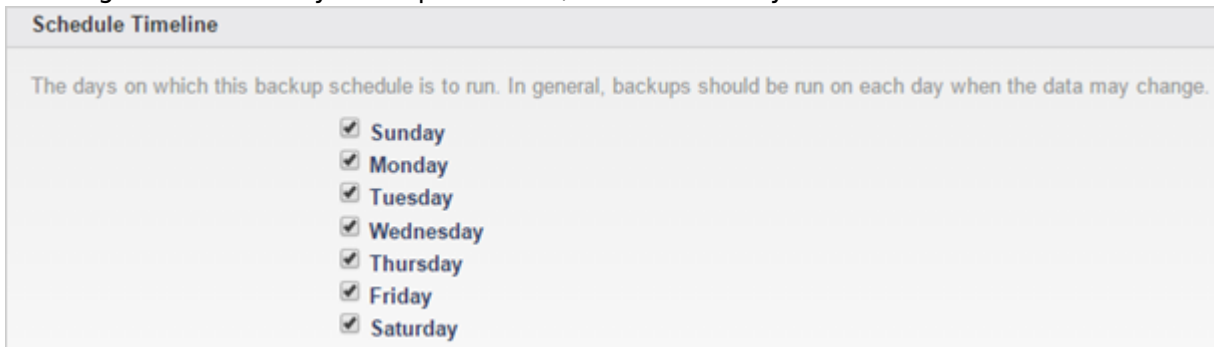

<https://campus.barracuda.com/doc/91982389/>

Use the following steps to schedule a backup:

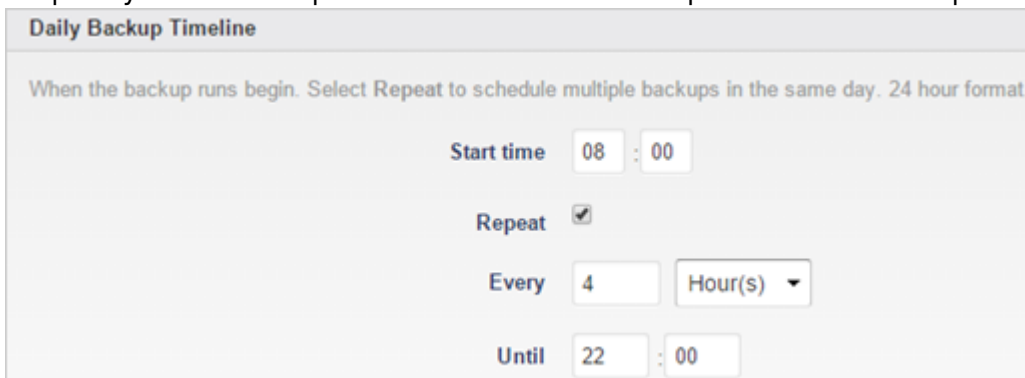

1. Log into Barracuda Backup, and select the Cloud-to-Cloud Backup Source in the left pane.
2. Go to **Backup > Schedules**.
3. On the **Schedules** page, click **Add a Schedule** in the upper right-hand corner.
4. Enter a name for your schedule in the **Schedule name** field:

5. In the **Identify the data sources** section, select the data to be backed up using this schedule. You can select **Select all** or you can granularly select data down to a specific file or folder.
6. In the **Schedule Timeline** section, select the days you want the schedule to run. If you are creating a one-time only backup schedule, deselect all days:

7. In the **Daily Backup Timeline** section, enter a **start time** for your backup schedule. To repeat a backup schedule throughout a 24-hour period, select the **Repeat** option and specify the frequency of the backup and the end time. A backup schedule cannot span multiple days:

- Once you have configured your backup schedule, click **Save**.
- The backup schedule is now listed on the **Schedules** page and specifies the days and times that it is to run. To run a backup on-demand, click **Run Backup Now**, to edit the schedule click **Edit**, or to delete a schedule, click **Remove**:
