

Adding the Barracuda Reporting Service

<https://campus.barracuda.com/doc/92767424/>

The integration of Barracuda Web Application Firewall with the Barracuda Reporting Service enables you to export the logs.

Perform the following steps to export logs:

1. In the **Add Export Log Server** window, specify values for the following:
 - **Name** – Enter a name for the reporting service.
 - **Log Server Type** – Select **Barracuda Reporting Service** to export the logs to the reporting server.
 - **IP Address or Hostname** – Enter the IP address or the hostname of the reporting service.
 - **Password** – Enter the password to be used for the above user account.
2. Click **Add**.
