

Removing Physical Imaging Standard Backup Sets

<https://campus.barracuda.com/doc/93197648/>

To remove a Physical Imaging Standard backup set, perform the following steps.

1. Navigate to the **Backup Selections** page. See [Creating Physical Imaging Standard Backup Sets](#) for instructions.

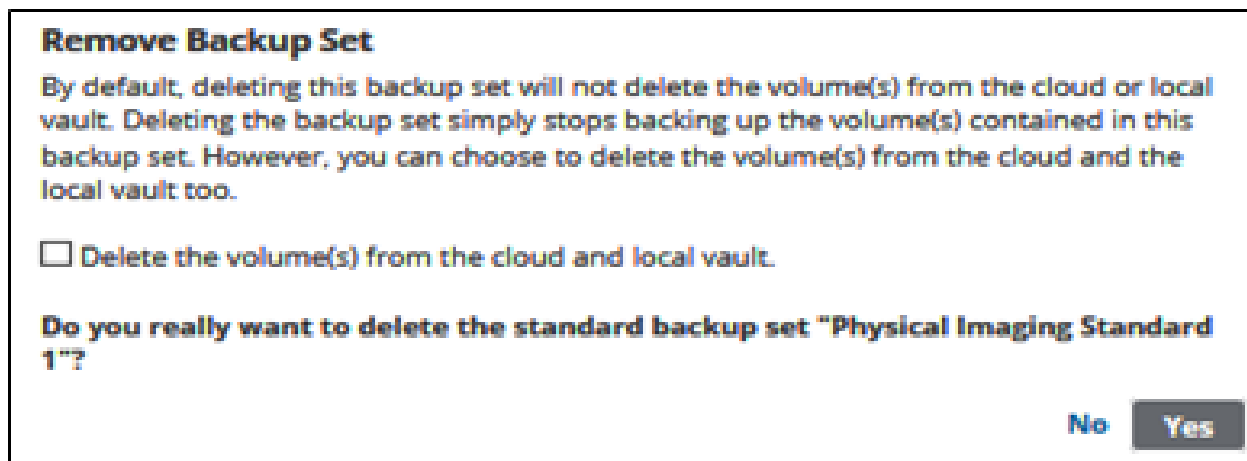

The **Backup Selections** page is displayed.

The screenshot shows the 'Backup Selections' page. On the left is a sidebar with backup types: Files and Folders (1), Physical Imaging Rapid Recovery, Physical Imaging Standard, Hyper-V Standard (1), Hyper-V Rapid Recovery (2), VMware Standard, VMware QuickSpin, SQL Server, Exchange Information Store, Exchange Mailbox Level, and System State. The main area is a table with columns: Type, Backup Set, Run, Next Backup, Scheduled, and Remove. The table contains four rows of backup sets. The 'Remove' column has a red 'X' icon for each row. A pagination bar at the bottom shows '1 - 4 of 4 items'.

Backup Type	Type	Backup Set	Run	Next Backup	Scheduled	Remove
Files and Folders (1)	Files and Folders	Files and Folders 1	▶	11/15/2017 @ 11:00 PM	<input checked="" type="checkbox"/>	✗
Physical Imaging Rapid Recovery	Hyper-V	Hyper-V Standard 1	▶	11/15/2017 @ 11:00 PM	<input checked="" type="checkbox"/>	✗
Physical Imaging Standard	Hyper-V	Hyper-V Rapid Recovery	▶	--	<input type="checkbox"/>	✗
Hyper-V Standard (1)	Hyper-V	Hyper-V Rapid Recovery 1	▶	Recurring	<input checked="" type="checkbox"/>	✗

2. At the relevant backup set row, click the remove  icon to remove the backup set. The confirmation pop-up is displayed.

Remove Backup Set

By default, deleting this backup set will not delete the volume(s) from the cloud or local vault. Deleting the backup set simply stops backing up the volume(s) contained in this backup set. However, you can choose to delete the volume(s) from the cloud and the local vault too.

☐ Delete the volume(s) from the cloud and local vault.

Do you really want to delete the standard backup set "Physical Imaging Standard 1"?

No Yes

3. Select the **Delete the volume(s) from the cloud and local vault** check box, and then click **Yes**.

The backup set is removed.
