

## Restoring Physical Imaging Standard to VHD/X Files

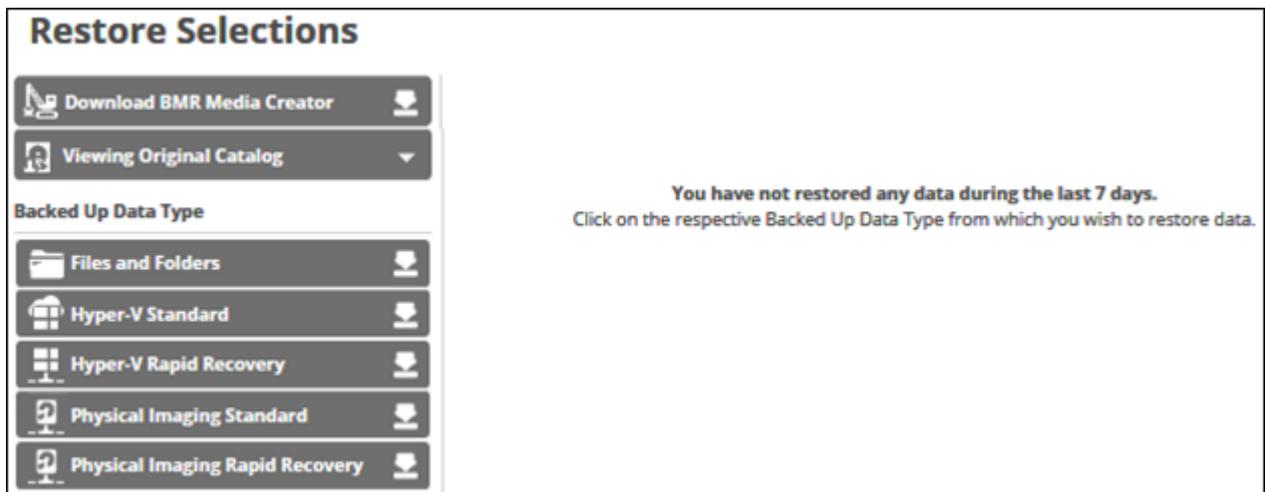

<https://campus.barracuda.com/doc/93197736/>

To restore Physical Imaging Standard volumes/revisions to VHD/X Files, perform the following steps.

1. Navigate to the **Computer** page.  
The **Computer** page is displayed.

2. Click the **Restore** tab.  
The **Restore Selections** page is displayed.

3. Click the restore  icon of the backup type you want to restore.  
The **Select** page is displayed.

**Restore**

**Physical Imaging Standard**

Select Destination Summary

What Physical Imaging Standard Would You Like to Restore?  
Select from the available revisions and/or volumes to restore by:

VHD/X Files  Virtual Machine

Select Your Revisions and/or Volumes

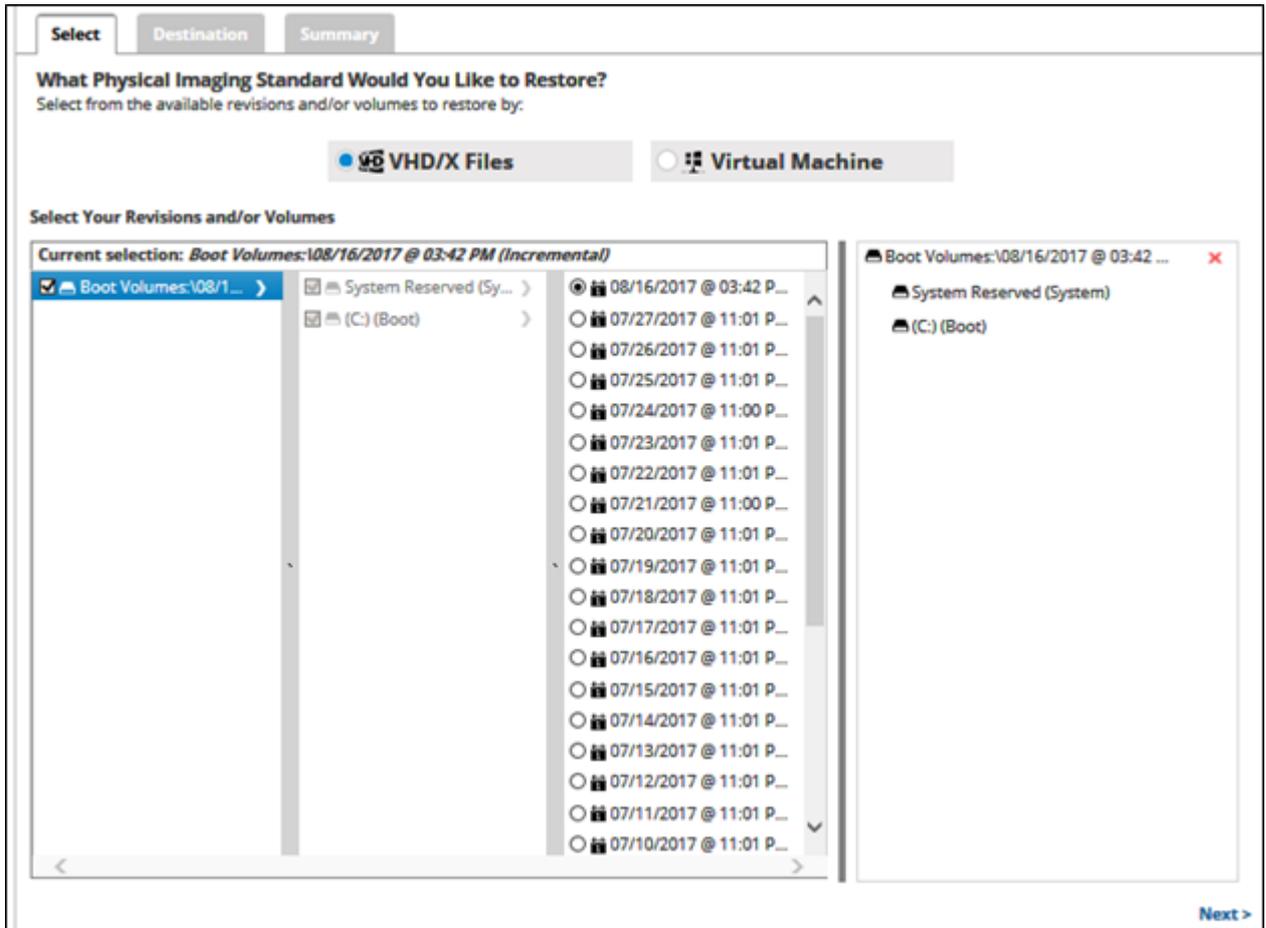

Current selection:  
 Boot Volumes: >

Select the volumes on the left that you want to restore.

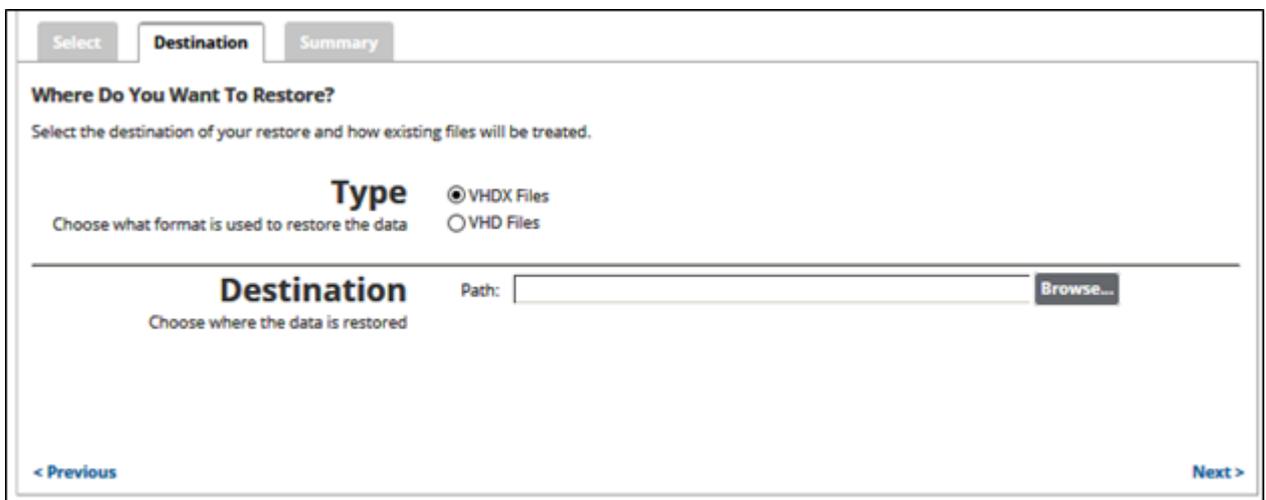

Next >

Cancel Restore

4. Click the **VHD/X Files** radio button.  
The **Physical Imaging Standard** revisions and volumes are displayed.

- In the **Current Selection** pane, select the revision and/or volumes you would like to restore. Clicking the arrow  at the right of the items displays more revisions/volumes. The selection is displayed in the right pane. Click the remove  icon to remove any selections.
- After making your selections, click **Next**. The **Destination** page is displayed.

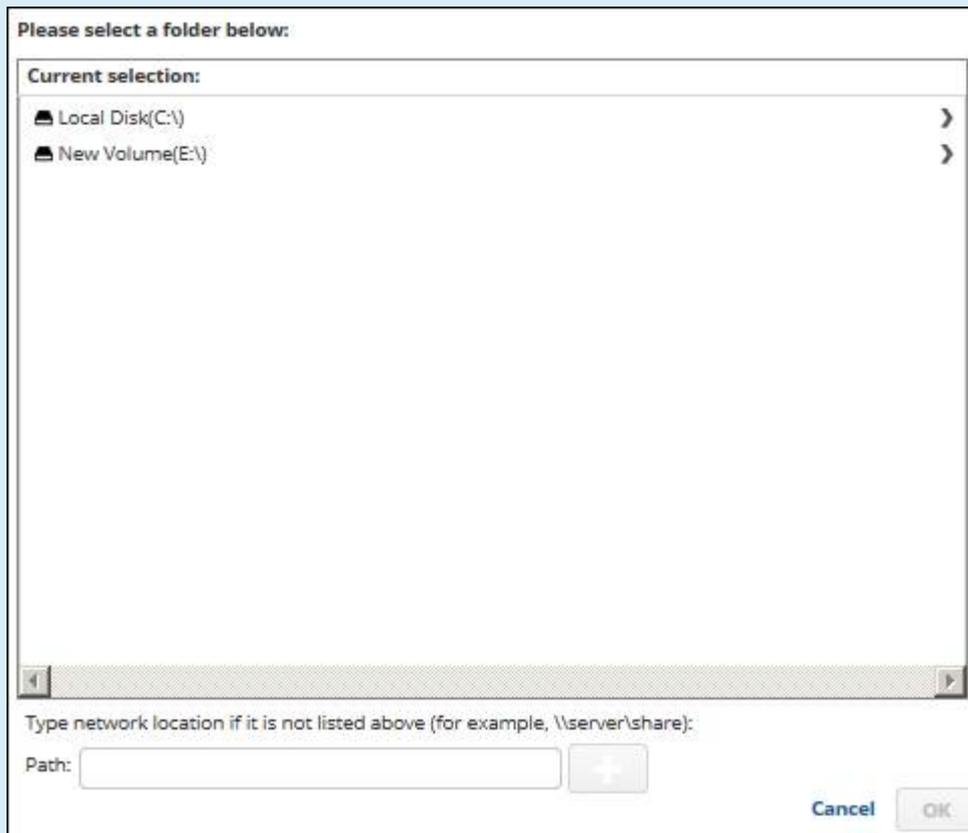

- In the **Type** section, select either the **VHDX Files** or the **VHD Files** radio button.
- In the **Destination Path** field, type a path, or click the **Browse** button to select the destination

of your restore.

### Browse Option

1. Click the **Browse** button.  
The folder options are displayed.

2. Select the destination.  
The **OK** button is activated.

3. Click **OK**.
4. The address is displayed in the **Path** field.

5. To add a network location that is not listed, perform the step below.

### Adding a Network Location

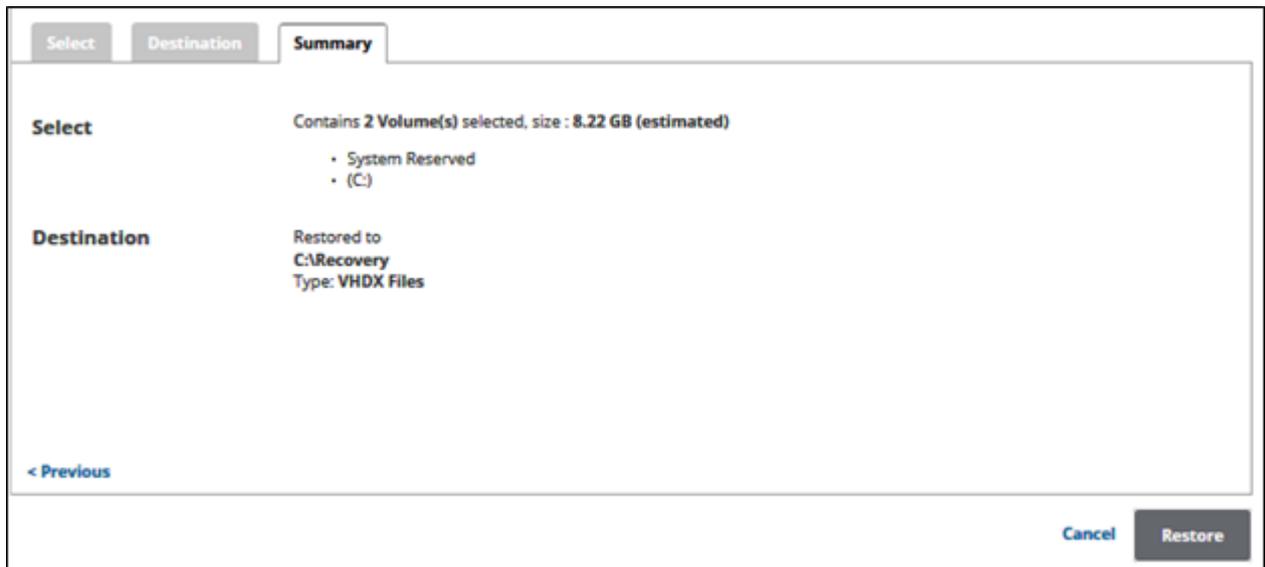

1. To restore VHD/X files on another network location that is not listed, type the network path address in the **Path** field as shown in the example below.

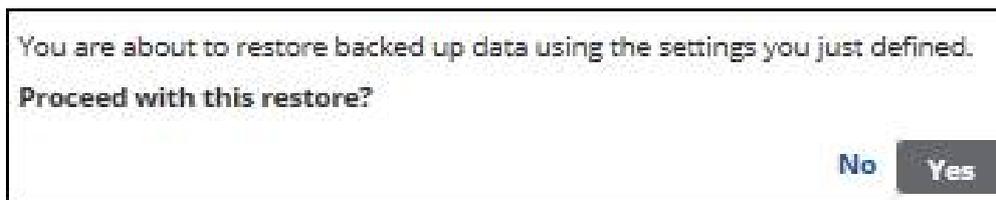

The add button is activated.

2. Click the add  button.

9. After selecting the destination of your restore, click **Next**.  
The **Summary** page is displayed.

10. Verify your selections, and then click the **Restore** button.  
The confirmation pop-up is displayed.

11. Click **Yes**.

The **Restore Selections** page is displayed with the status.
