Reports

The **Reports** page provides a detailed report for each backup, export, or restore job that is run. In addition, any processes currently running displays. Reports include details such as error or warning status, data source, type of job, when the job started, size, and the number of new or removed items.

Click on any of the items to see the status and details of the backup, export, or restore job.

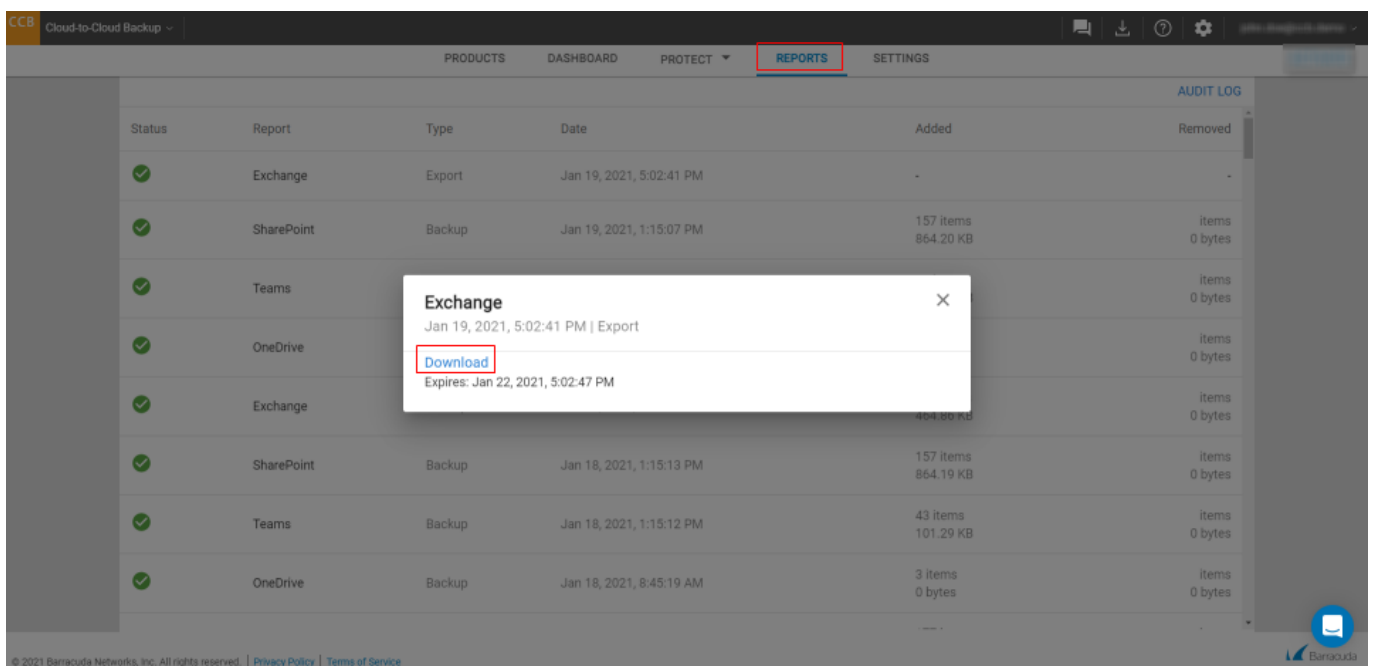

The screenshot shows the 'REPORTS' tab in the Barracuda Cloud-to-Cloud Backup interface. A modal window titled 'Teams' is displayed, indicating a successful backup operation on Jan 13, 2021, at 1:15:11 PM. The background table lists various backup and export jobs for Teams, OneDrive, and Exchange.

You can also download the item(s) you exported from the **Protect** page. Click **Download** next to the item(s) you want to download.

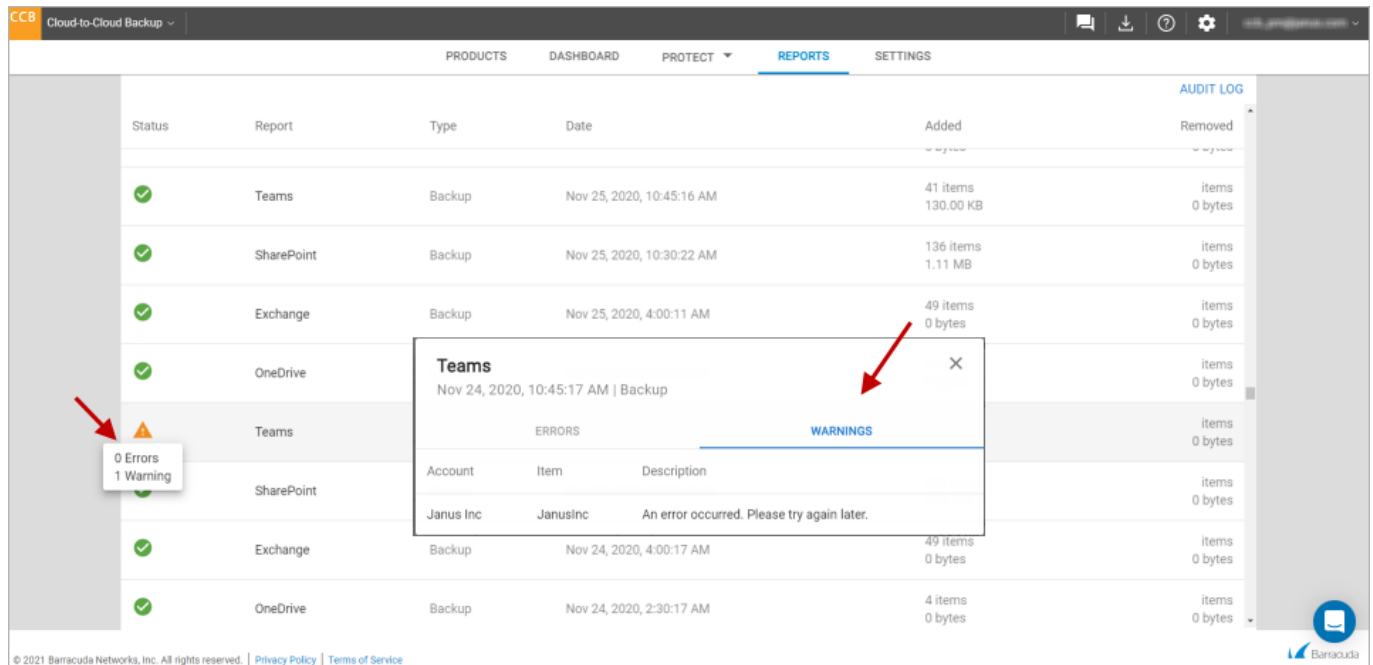

A single file export less than 4GB will download automatically. If you are exporting multiple files, the **Download** link will bring up a new page listing the ZIP file(s) in the export job. Note that you can only download the ZIP file(s) from this page. If the export job exceeds 4GB or 25,000 items, the page includes details of each ZIP file within the nested ZIP file. Use the browser download manager to select one or more download jobs at your convenience.

The screenshot shows the 'REPORTS' tab with a modal window for an 'Exchange' export job on Jan 19, 2021, at 5:02:41 PM. A 'Download' link is highlighted in the modal. The background table lists various backup and export jobs for Exchange, SharePoint, Teams, OneDrive, and Exchange.
