

Removing Hyper-V Rapid Recovery Backup Sets

<https://campus.barracuda.com/doc/93198151/>

To remove a Hyper-V Rapid Recovery backup set, perform the following steps.

1. Navigate to the **Backup Selections** page.
The **Backup Selections** page is displayed.

2. At the relevant backup set row, click the remove icon  to remove the backup set.
The confirmation pop-up is displayed.

3. Optionally, select the **Delete the VM(s) from the Rapid Recovery destination** check box, and then click **Yes**.

Deleted data is purged completely and can no longer be accessed or restored.

It is recommended to select this option to free up disk space by deleting unnecessary data.

4. After making your selection, click **Yes**.

The backup set is removed.
