

## Status Display Filters

<https://campus.barracuda.com/doc/93198468/>

The Status Display Filters can be set by clicking the Filters checkbox and then selecting from the Filters Affect drop-down menu.

You may select the most recent backup status or the status of all backups.

After selecting your option, you must click the **Apply** button.

The example shown below is set to display all backups that have failed.

The Filters display the following status:

- Backups that have failed.
- Backups completed with warnings.
- Backups completed.
- Backups that are currently running.

## Figures
