

Restoring an Exchange Mailbox Level Backup

https://campus.barracuda.com/doc/93198889/

This article provides the steps to restore individual messages, specific folders, or entire mailboxes from an Exchange Mailbox Level backup set. Depending on the purpose for the restore, you may want to restore the mail back into Exchange or restore it outside, in the form of individual message files or a (.pst) file.

To restore an Exchange Mailbox Level backup, perform the following steps.

 Log in to the <u>management portal</u> and navigate to the Computer page. See <u>Navigating to the</u> <u>Computer Page</u> for instructions.

The Computer page is displayed.

| | | | | - | | Exclusions are marked in red. | |
| | | | | | | | Next? |

Note: You can only restore from one Exchange Server at a time.

6. After confirming your selections, click **Next**.

The Destination page is displayed.

| Select Destination Summary | | |
|--|--|--------|
| Where Do You Want To Restore? Select the destination of your restore, the method with | h which you wish to restore and how existing data will be treated. | |
| Restore Method Determine how you would like the mailbox data to be restored and into which format. | Restore to file(x) Restore to Exchange | |
| Destination Choose where the data is restored | Padr: Browse | |
| Existing Files | Do not overwrite any existing files with restored files Overwrite existing files with restored files | |
| Deleted Items | Do not restore deleted items Restore deleted items | |
| < Previous | | Next > |

7. Select a Restore Method radio button.

If you select **Restore to file(s)** or **Restore to .PST file**, then at the Destination path field, type a path, or click the **Browse** button, and select a destination for the restored file(s). See <u>Browsing to a Folder</u>.

If you select **Restore to Exchange**, the following fields are displayed.

| Restore to Exchange | | |
|-----------------------|---|---|
| Exchange Service Url: | https://win-4js5c0muqec.exchange2013.domain/ews/exchange.as | Ŧ |
| User: | administrator@exchange2013.domain | • |

- 8. At the Existing Files section, select either **Do not overwrite any existing files with restored files** or **Overwrite existing files with restored files** radio button,
- 9. At the Deleted Items section, select **Do not restore deleted items** or **Restore deleted items**, and then click **Next**.

The Restore Summary page is displayed.

| Select Destination | Summary | |
|--------------------|---|--|
| Select | Recovering 3 mail item(s), size: 73.75 KB (estimated) | |
| Destination | Restore to C/Recovery | |
| | Do not overwrite any existing files with restored files Do not restore deleted items | |
| | | |
| | | |
| | | |
| | | |
| < Previous | | |
| | Cancel Restore | |

10. Verify the restore selections, and then click **Restore**. The confirmation pop-up is displayed.

11. Click **Yes**.

The Restore Selections page is displayed with the status.
