

Stray File Reporting Guide

<https://campus.barracuda.com/doc/93199440/>

Overview

The Stray File List Script allows you to display stray files, and how large those files are, for each subaccount. With this feature, storage usage can be managed more efficiently.

See Stray Files in the ECHOplatform Backup and Restore Reference Guide.

Command Line Code

NOTE: Substitute " **Program Files (x86)\Intronis Technologies\eSureIT**" with the actual path to the installation folder.

```
"c:\Program Files (x86)\Intronis Technologies\eSureIT\BackupCLI.exe" /local  
/in c:\StrayfileList.xml
```
