

The Intronis Dashboard

https://campus.barracuda.com/doc/93199442/

Overview

This section provides the following information.

- Intronis Dashboard overview
- <u>Backup status icons</u>
- Backup history drop-down menu
- Backup Status sorted by accounts and filters
- <u>Dashboard summary</u>
- Expandable detailed list of all accounts

Intronis Dashboard Overview

The Intronis Dashboard immediately displays the latest status of account activity with a graphical interface, as shown in Figure 1.

At least one agent must be connected for the dashboard to display.

Figure 1. Intronis Dashboard.

Backup Status Icons

The following table provides a description of the Intronis Dashboard icons.

lcon	Description
0	Failed
A	Warnings
	Completed
X	Running

The ratio below each icon (highlighted in the **Completed** icon example below), represents the number of successful backups over the total number of backups that have completed. Therefore, if a backup is completed 3 times in the past 7 days, the count is reported as three.

Backup History Drop-down Menu

The backup history drop-down menu is located at the upper left of the **Dashboard** page.

With the backup history drop-down menu, you can display backups that have completed in the last 12 or 24 hours, or the last 7 days, as shown in Figure 2.

Click the **Apply** button to apply the changes.

You can *sort* the accounts that are graphically displayed by the following:

- Account name
- # of failed backups
- % of failed backups
- # of currently running

You can *filter* the accounts that are graphically displayed by the following:

- Failed
- Warnings
- Completed
- Running

Dashboard Summary

The Dashboard Summary provides the date/time of the last update and drop-down menus that allow you to select the number of accounts to display as well as the page that you want to view, as shown in Figure 4.
