

New Login Experience for Barracuda Cloud Control

<https://campus.barracuda.com/doc/93201648/>

A new login experience is coming soon to Barracuda Cloud Control! On **Tuesday, November 17, 2020**, Barracuda is launching a new user login experience for Barracuda Cloud Control which includes re-imagined login flows, a fresh design, and support for third-party authentication.

What's New?

- A fresh new look and feel, with an intuitive, lightweight, and responsive design.
- An organized home page that encourages a more focused login experience.
- Access to the **Barracuda Status** page.
- Single sign-on with Microsoft Entra ID (OAuth).

Single Sign-On with Microsoft Entra ID (OAuth)

Customers with a configured Microsoft Entra ID in Barracuda Cloud Control can now take advantage of the authentication configuration within Microsoft Entra. This means that customers using multi-factor authentication (MFA) with Microsoft Entra can now use that same process for signing into Barracuda Cloud Control. This provides users with a secure, smooth login experience to Barracuda Cloud Control.

Upon signing into Barracuda Cloud Control, Microsoft Entra users will be redirected to Microsoft for

authentication. After users are authenticated with Microsoft, they are signed into Barracuda Cloud Control.

To configure single sign-on with Microsoft Entra ID, see [Single Sign-On with Microsoft Entra ID \(OAuth\)](#).
