CloudGen Access Directory Connector Release Notes

https://campus.barracuda.com/doc/93881087/

Version 1.4.6

- Small improvements.

Version 1.4.5

- Dropped custom Alpine container in favor of the official one.
- *Run once* no longer retries.

Version 1.4.4

- Added support for Okta groups.

Version 1.4.2

- Fixed LDAP config save.
- Bumped Python libraries.

Version 1.4.1

- Fixes for the new AzureAD and Google authentication through the Enterprise Console.

Version 1.4.0

Release date: 2023.05.10

- OAuth2 flow replaces OAuth flow for Microsoft Azure user directories. Authorization happens when you add a user directory and click **Authorize** in the UI. Note that existing configured Azure user directories are not affected.

Version 1.3.24

Release date: 2023.02.22

- OAuth2 flow replaces OAuth flow for Google Workspace user directories since Google

deprecated OAuth out-of-band (OOB) flow in October, 2022. Authorization happens when you add a user directory and click **Authorize** in the UI. Note that existing configured Google Workspace user directories are not affected.

Version 1.3.20

Release date: 2022.08.09

- Added flags documentation for --help command.
- Simplified Google Apps and Azure authentication by removing last token copy step.
- Introduced *Authorize* and *Sync* commands (Sync runs by default).

Version 1.3.16 - 1.3.17

Release date: 2021.09.23

- Added LDAP/MSAD support.
- Lock dependency versions.
- Updated Google auth deps and fixed token load.

Version 1.3.15

Release date: 2021.09.22

- Added early LDAP/AD support
- Fixed docker release tag
- Added support for new state APIs
- Decreased number of AzureAD changes sent upstream

Version 1.3.14

Release date: 2021.08.30

- Fixed group filtering code

Version 1.3.13

Release date: 2021.08.26

- Fixed Azure AD nested grouping

Version 1.3.12

Release date: 2021.08.20

- Fixed Azure AD commands ordering and no longer remove stored group names

Version 1.3.11

Release date: 2021.08.17

- Fixed constants access
- Updated rpm build to centos:8

Version 1.3.10

Release date: 2021.08.16

- Employing new User-Agent
- Fixed nested groups flattening on Azure AD

Version 1.3.9

Release date: 2021.02.27

- Fixed Azure AD de-sync when filters change

Version 1.3.8

Release date: 2021.01.30

- Fixed Debian Systemd packaging

Version 1.3.7

Release date: 2021.01.22

- Fixed the way CGA stops a connector
- Improved RPM packaging

Version 1.3.6

Release date: 2021.01.08

- Now only process group membership information if the group is not marked as *removed*

Version 1.3.5

Release date: 2020.12.19

- Fixed cyclical groups in Azure AD

Version 1.3.4

Release date: 2020.12.10

- Fixed bug in Azure AD phone selection

Barracuda CloudGen Access

Version 1.3.3

Release date: 2020.09.13

- Pyinstaller Folder Refresher

Version 1.3.0

Release date: 2020.06.01

- AD support enhancement

Version 1.1.0

Release date: 2020.02.13

- Added Azure AD support
- Added support for user and group filtering
- Updated Google Suite compatibility
