

How to Connect Your Azure Active Directory with Barracuda Cloud Control

<https://campus.barracuda.com/doc/93882783/>

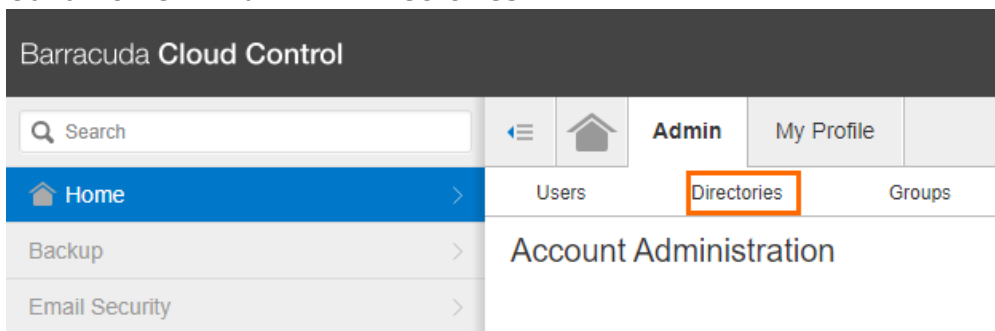

Connect your Barracuda Cloud Control to synchronize users and groups with Azure Active Directory. The user and group synchronization is required if you want to use users and groups in the [Security Policies](#) and for [Personal Access and Site Authentication](#) .

Before You Begin

- The Azure Active Directory you are connecting to in the following steps must be the same Azure Active Directory configured in <https://cloudgenwan.barracudanetworks.com/>.
- You must have administration privileges for Barracuda Cloud Control.

Synchronize Your Barracuda Cloud Control with Azure Active Directory

1. Log into <https://login.barracudanetworks.com/> .
2. Go to **Home > Admin > Directories**.

3. The **Directories** page opens. Click **Add Directory**.

4. From the drop-down menu, select **Azure Active Directory**.

- The **Create Directory: New Azure AD** window opens.
- In the **INFO** tab specify values for the following:
 - Directory Name** - Enter a name.
 - User / Group Sync** - Click to enable.
 - Authentication** - Click to enable.
