

How to Create a Barracuda Cloud Control Account for Barracuda CloudGen WAN

<https://campus.barracuda.com/doc/94536566/>

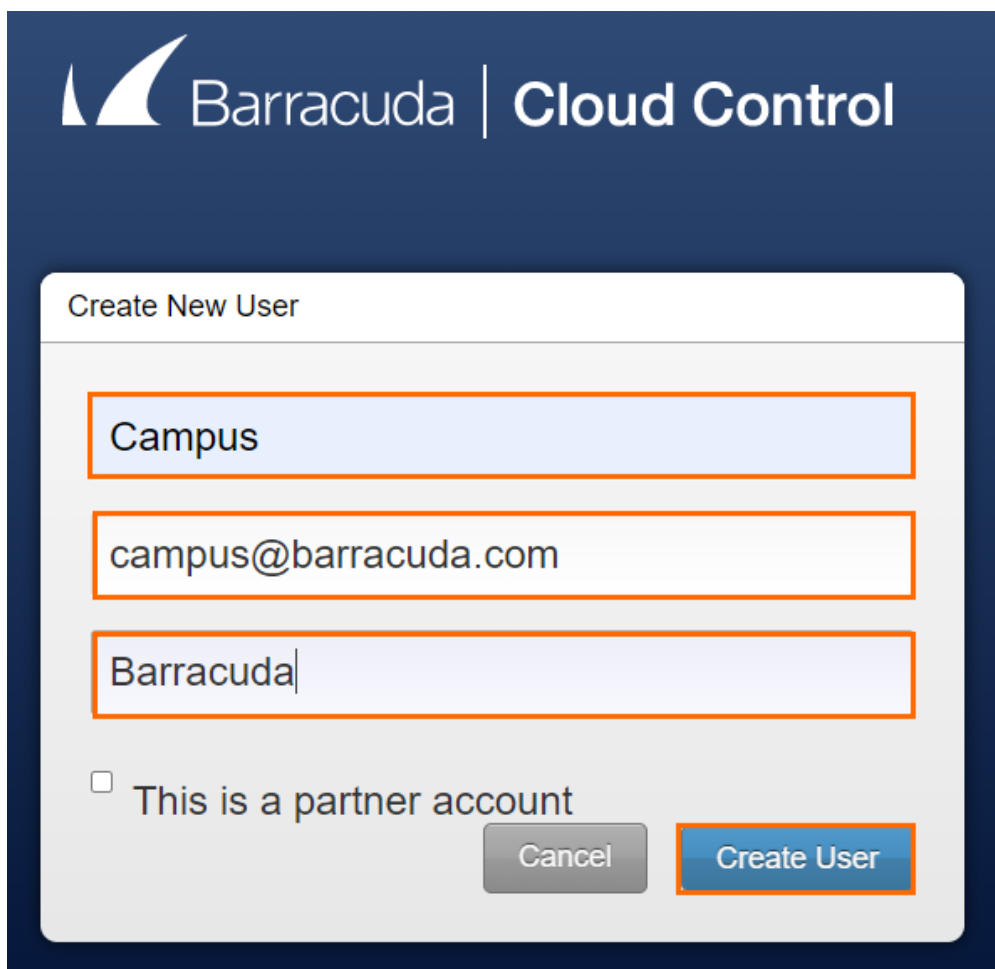

For Barracuda CloudGen WAN you need a Barracuda Cloud Control account.

Step 1. Create a Barracuda Cloud Control Account

1. Go to <https://login.barracudanetworks.com/>.
2. Click **Create a User**.

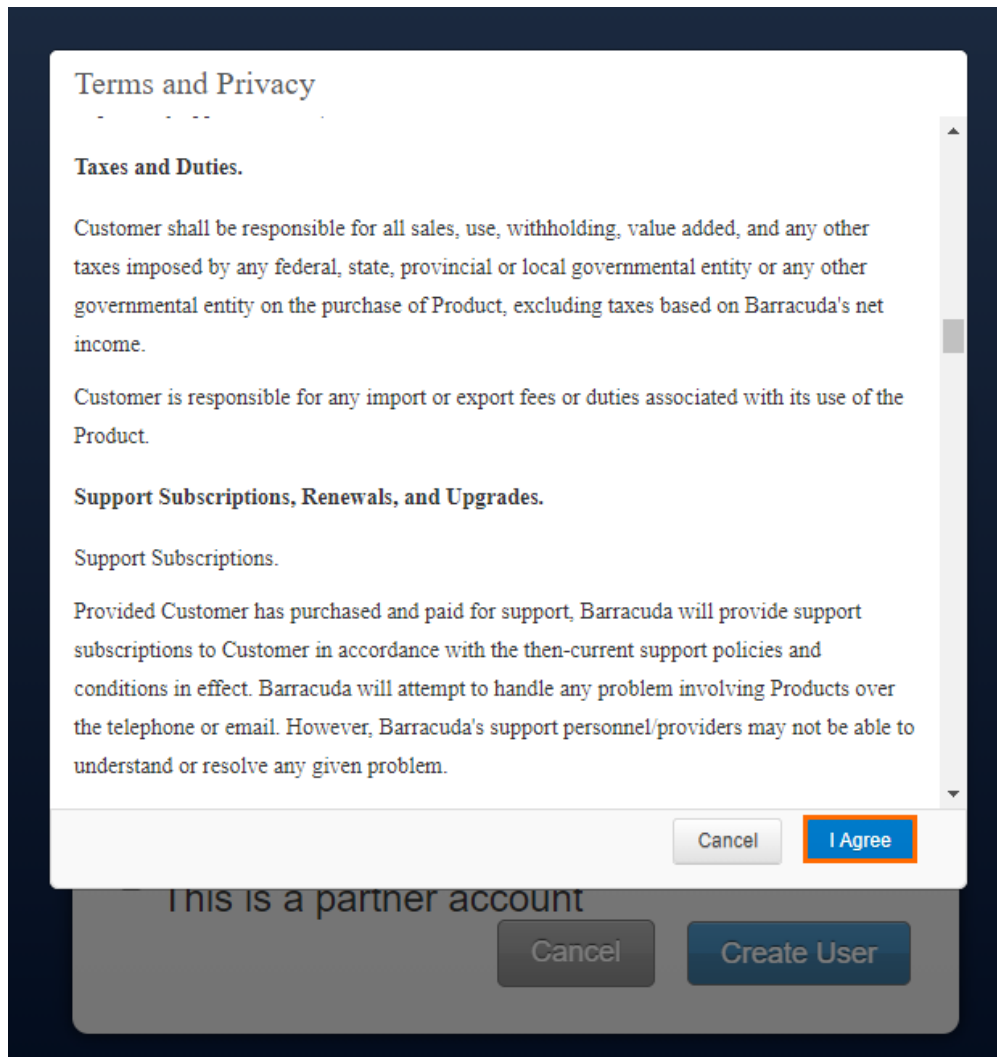

The image shows the Barracuda login page. At the top is the Barracuda logo. Below it is the heading "Sign In" followed by "with your Barracuda Account". There is an "Email Address" label above a text input field. Below the input field is a blue "NEXT" button. Below the "NEXT" button is a link "CREATE A USER" which is highlighted with an orange border. Below this link is a line of text: "By clicking 'Next', you agree to our [Privacy Policy](#)". At the bottom of the page is a link "VIEW PRODUCT DEMOS >".

3. The **Create New User** window opens. Enter values for the following:
 - **Name** – Enter your name.
 - **Email Address** – Enter your email address.
 - **Company Name** – Enter your company name.

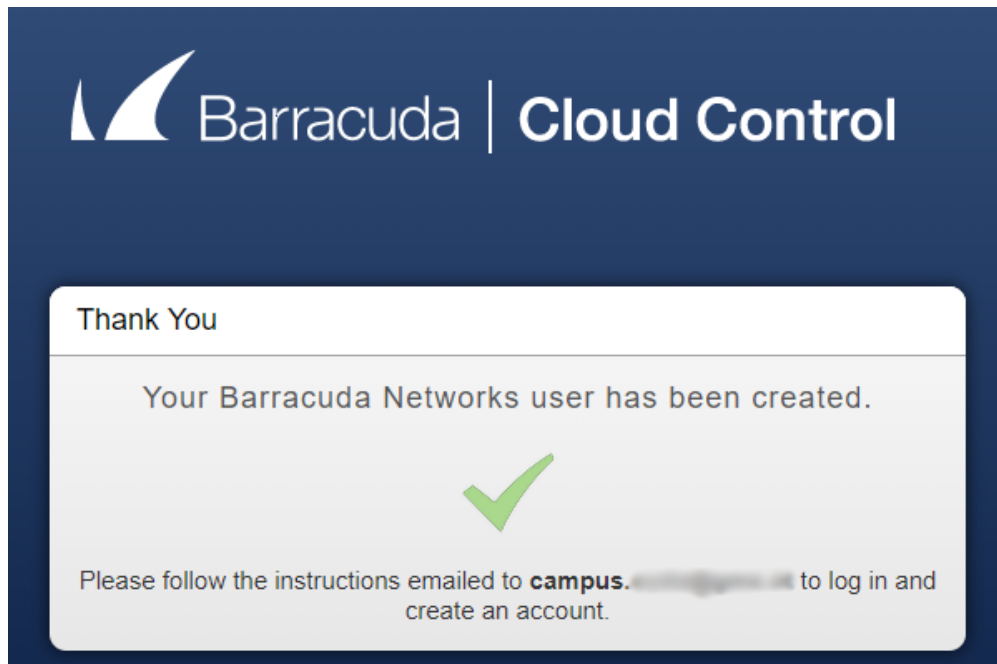

The image shows a 'Create New User' dialog box from the Barracuda Cloud Control interface. The dialog has a dark blue header with the Barracuda logo and the text 'Barracuda | Cloud Control'. Below the header, the title 'Create New User' is displayed. There are three input fields: the first contains 'Campus', the second contains 'campus@barracuda.com', and the third contains 'Barracuda'. Below these fields is a checkbox labeled 'This is a partner account'. At the bottom right, there are two buttons: 'Cancel' and 'Create User'. The 'Create User' button is highlighted with an orange border.

4. Click **Create User**.
5. The **Terms and Privacy** window opens.

6. Read the terms and privacy statement and click **I Agree**.
7. A notification window opens stating that an email has been sent to you.

Step 2. Verify Your Data and Set the Password for the New Account

1. Log into the email account used in Step 1.
2. Open the hyperlink received in the email from Barracuda Networks to verify your information.

Hello Campus,

Welcome to Barracuda Networks.

In order to complete the setup of your new account, please click the link below to verify your information.

https://login.barracudanetworks.com/auth/change_password/PC-b2b1d982b75f3dbe4d0492b93f0012ad51530801-13bd8ae9a89de38ef4b39e832fe821a3/new?company=Barracuda

Login Username:

campus. [redacted]

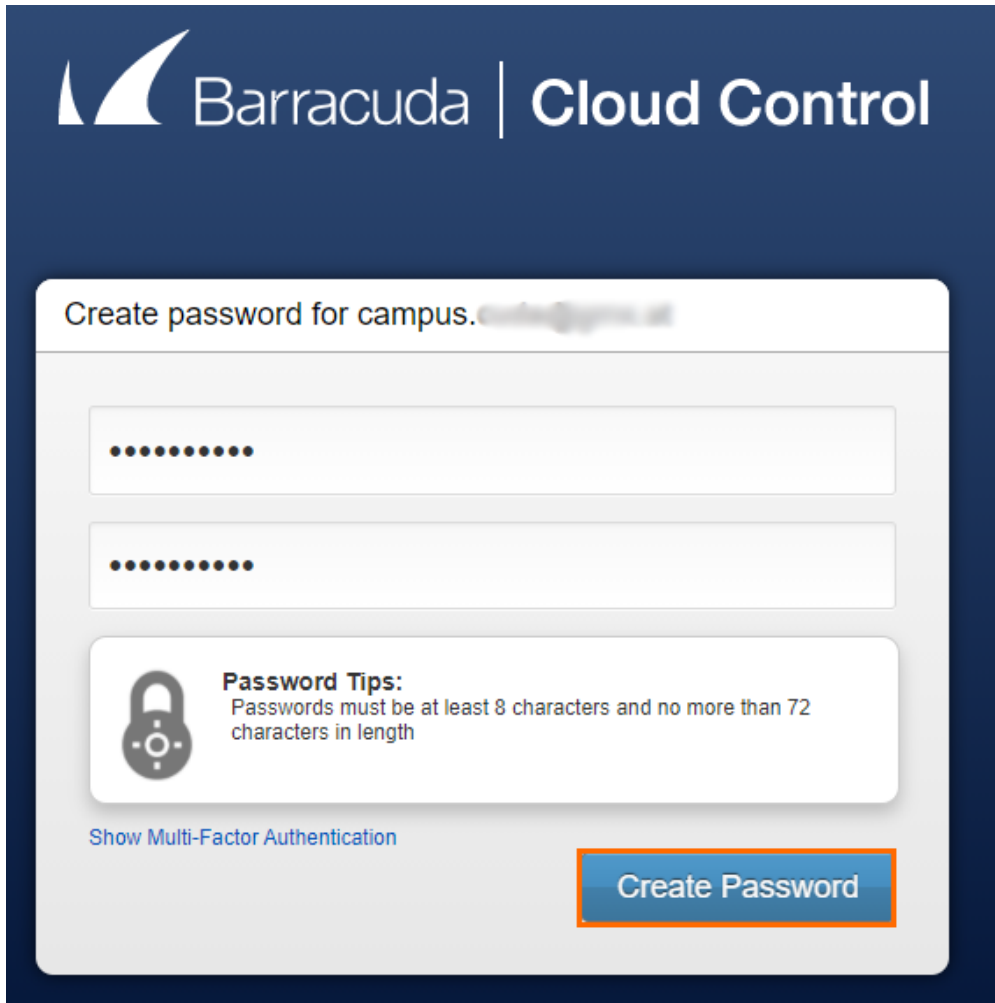

Thank you,

- Barracuda Networks

<http://www.barracudanetworks.com/>

3. **Barracuda Cloud Control** opens automatically in your web browser.
4. Enter a password and verify the new password by retyping it in the box below.

The password must not contain a "%" character!

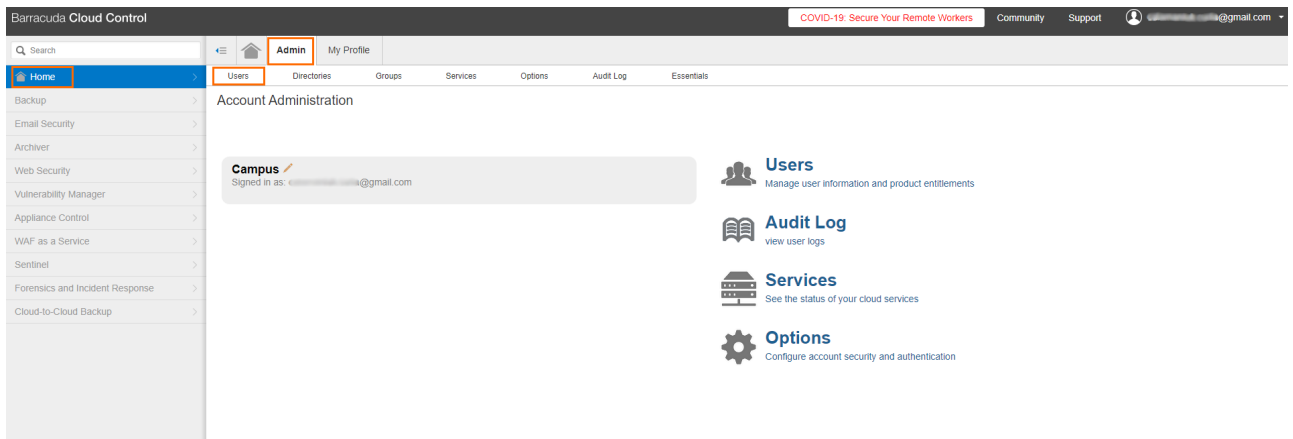

The image shows a screenshot of the Barracuda Cloud Control interface. At the top, the Barracuda logo and 'Cloud Control' are displayed. Below this, a white box contains the text 'Create password for campus.' followed by a blurred email address. There are two password input fields, each showing a series of dots. Below the fields is a 'Password Tips' section with a padlock icon and text stating: 'Passwords must be at least 8 characters and no more than 72 characters in length'. A link 'Show Multi-Factor Authentication' is visible. At the bottom right, a blue button with an orange border is labeled 'Create Password'.

5. Click **Create Password** to save the new password.

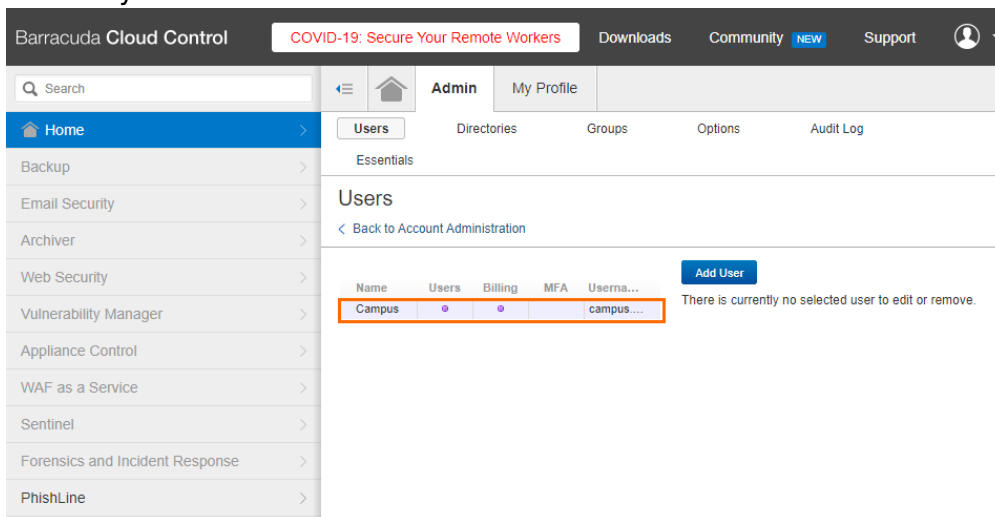

The newly created user can now access Barracuda Cloud Control and Barracuda CloudGen WAN by using the email address from Step 1 and the password created in Step 2.

Step 3 Enable Access for Barracuda CloudGen WAN and Zero Touch Deployment

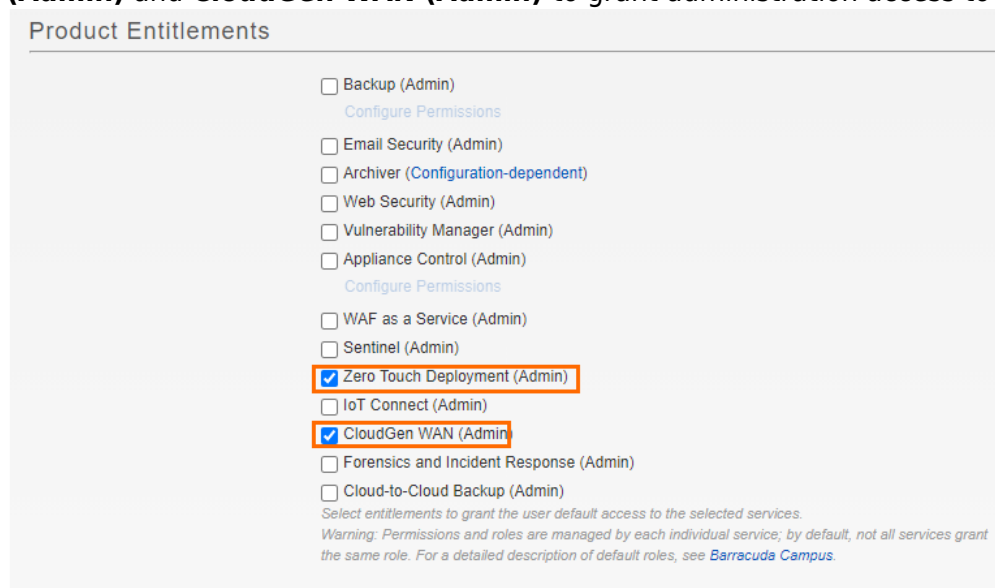

1. Go to <https://login.barracudanetworks.com/>.
2. Sign in with your email address used in Step 1 and your password created in Step 2.
3. Click **Home** in the left menu.
4. Click **Admin** to go to the Account Administration section.
5. Click **Users** to open the User Management section.

6. Click on your own user account in the list.

7. In the **Product Entitlements** section, select the check box next to **Zero Touch Deployment (Admin)** and **CloudGen WAN (Admin)** to grant administration access to your account.

8. Click **Save user** to save the changes.

This account can now be used for Barracuda CloudGen WAN.

Next Step

Continue with [Getting Started](#).
