
Changelog Cloud UI

<https://campus.barracuda.com/doc/95258111/>

All changes to the [Cloud Web UI](#) that are not covered by the Release Notes of a specific firmware version are listed below.

April 2023

- Cloud Service Update – This release includes several bug fixes.

March 2023

- Cloud Service Update – This release introduces Azure-less service subscriptions. Several bug fixes and security improvements were applied.

November 2022

- Cloud Service Update – Several bug fixes and security improvements were applied.

October 2022

- GUI Update – A new user interface is available. Documentation will be accessible with General Access Release (GA). For more information, see [Release Notes 9.0](#).

August 2022

- Upstream Gateways – Added the ability to configure upstream gateways for on-premises gateways. For more information, see [How to Create a Private Edge Gateway in Barracuda CloudGen WAN](#).
- Secure Connector – Added support for Secure Connector model FSC2. For more information, see [How to Create a Secure Connector Site Configuration in Barracuda CloudGen WAN](#).

April 2021

-
- Customer consent for account takeover by Support – Enable Support Access to allow Barracuda Networks Support technicians to access your CloudGen WAN management portal and make configuration changes on your behalf. For more information, see [How to Enable Support Access](#).

March 2021

- Serial Swap – Added the ability to change the serial number. For more information, see [How to Change the Serial Number](#).
- License State Visualization – The license state of an appliance is displayed in the site menu dashboard. For more information, see [How to Display the License State of a Site Appliance](#).
- High Availability Cluster Link Monitoring – Static LAN or WAN ports of appliances configured in a High Availability cluster can now be monitored separately. In case one of the monitored interfaces is down, a failover will be performed. For more information, see [How to Enable Interface Monitoring in a High Availability Cluster](#).
