VMWare ESXi Service Module — Barracuda RMM

https://campus.barracuda.com/doc/95260470/

This release of the VMWare ESXi Service Module for Barracuda RMM, build 1.1.1.63, includes support for VMWare ESXi 7.0.

Also included are the fixes for three customer-reported issues.

Resolved issues

199	Resolved an issue that slowed the display of the **Host Summary** report.
4086	Resolved an issue where entering incorrect ESX credentials can result in a persistent lockout state, even after correct credentials are entered.
7871	Resolved an issue where the **Status** > **Service Module** > **Site Overview** page was not displayed correctly.

Known Issue

An issue exists where the VMWare site page does not load if a host is assigned and the IP is removed from the scan range.
