

What's New in Barracuda Campus, January 2022

<https://campus.barracuda.com/doc/96021109/>

January 2022

The Barracuda Campus newsletter is published monthly with a listing of new and updated articles by product. The **Highlights** section announces new product documentation and other major additions or updates to the Barracuda Campus. Check back each month to see What's New!

Please direct feedback and questions to campus@barracuda.com.

Note that this edition of *What's New* is now organized to reflect the Barracuda Email Protection plans.

Highlights

- Reorganization of this newsletter, based on new [Barracuda Email Protection plans](#).
- New [Data Inspector](#) documentation.
- Updated new [Email Gateway Defense](#) (formerly Barracuda Email Security) documentation as part of the new Barracuda Email Protection.
- [Barracuda Cloud Control](#) – Multiple releases in December 2021.
- [Barracuda Cloud-to-Cloud Backup](#) – Multiple releases in December 2021.
- [Barracuda Web Security Gateway](#) – Early release of version 16.0. Many new features!

Barracuda Backup

Updated

- [Virtual Infrastructure](#) – Updated to support Hyper-V virtual hardware version 5.0 through 9.0 (Hyper-V 2019).
- [Barracuda Backup Data Transfer IP Ranges](#) – Added note that SSL inspection or other content filtering rules can interfere with cloud encryption, causing replication to fail.
- [Firmware Upgrade Policy and Supported Versions](#) – Updated with latest information.

Barracuda Cloud Control

Updated

- [Barracuda Cloud Control Release Notes](#) - Updated for December 2021 release.
