

Product Patch Management

<https://campus.barracuda.com/doc/96021722/>

For maximum security, Barracuda Networks recommends automatically applying firmware patches as a best practice for keeping your Barracuda Web Security Gateway up to date (*Available for version 16.0 and higher*):

1. Log into the Barracuda Web Security Gateway as *admin*.
2. Go to the **ADVANCED > Configuration** page.
3. In the **Product Patch Management** section, set **Enable/Disable Product Patches** to *ON*.
4. You can view available patches and patches that have been applied to your appliance in the table below this setting.
